

Macaulay Clan in Australia

Feb, 2013

Hi Everyone,

Firstly I have to apologise to anyone who received bogus emails from me. I have had some problems with my emails. Apparently someone had logged in and was using my email address. I was locked out of my emails, and have only just got things working properly again, so I am very sorry if I have I have caused any problems to your emails as well.

We have a little change to our program. The Glass blowers son has decided to get married that weekend causing them to cancel our little demo. Geoff checked out the Motor Museum in Binalong the other day and reports it is quite good so we will go there instead.

Also Ruth reports she had a visit from the Clan Chief Hector Macaulay and his lovely wife Kate. They had a little gathering in NZ. I am sure Ruth and Bruce were great hosts and that Ruth will have a full report on the gathering for us in Yass.

It's still not too later to come along and join us in Yass.
Hoping to see you all there.

Cheers Kate

A Word from President Brian

Hi to all fellow Clan Members.

I hope you are all coping with the unusual weather we are having in this great country of ours, fires, drought and floods.

To those going through fires and drought I know that you can have some or our rain and floods if it would help.

Although we are well above any recorded flood level there are those who are not. So far the levy banks have held the water out of Grafton. It's getting close to 40 days, and I hope the rain stops before that.

We currently have mobs of crows flying around saying Ark, Ark do they know something we don't.

Our annual gathering is close approaching this year at Yass. I hope to see you all there safe and well.

Geoff, Kate and others have done a great job organising this event and I'm sure everyone attending will enjoy the weekend catching up with fellow clan members and seeing what the town of Yass has to offer.
